Re: 051-15757  
First Minor Permit Revision to  
FESOP 051-14020-05060

Dear Ms. Green:

Gohmann Asphalt & Construction, Inc. was issued a General Asphalt FESOP on December 26, 2001, for an asphalt pavement production plant. A letter requesting changes to this permit was received on March 25, 2002. The change relates to the addition of one (1) 100 ton asphalt storage silo to the facility. Rule 326 IAC 2-8-11.1(a) states in part that "any person proposing to add additional emission units, modify existing emission units, or otherwise modify a FESOP source shall submit a permit revision request". Therefore, pursuant to the provisions of 326 IAC 2-8-11.1 a minor permit revision to this permit is hereby approved as described below:

No changes have been made to permit pages as the silo meets the definition of an insignificant activity, as defined in 326 IAC 2-7-1(21).

The following construction conditions are applicable to the proposed project:

1. General Construction Conditions  
The data and information supplied with the application shall be considered part of this source modification approval. Prior to any proposed change in construction which may affect the potential to emit (PTE) of the proposed project, the change must be approved by the Office of Air Quality (OAQ).
2. This approval to construct does not relieve the permittee of the responsibility to comply with the provisions of the Indiana Environmental Management Law (IC 13-11 through 13-20; 13-22 through 13-25; and 13-30), the Air Pollution Control Law (IC 13-17) and the rules promulgated thereunder, as well as other applicable local, state, and federal requirements.
3. Effective Date of the Permit  
Pursuant to IC 13-15-5-3, this approval becomes effective upon its issuance.
4. Pursuant to 326 IAC 2-1.1-9 (Revocation), the Commissioner may revoke this approval if construction is not commenced within eighteen (18) months after receipt of this approval or if construction is suspended for a continuous period of one (1) year or more.
5. All requirements and conditions of this construction approval shall remain in effect unless modified in a manner consistent with procedures established pursuant to 326 IAC 2.

Pursuant to 326 IAC 2-8-11.1, this permit shall be revised by incorporating the minor permit revision into the permit. All other conditions of the permit shall remain unchanged and in effect. Please attach a copy of this modification and the following revised cover page to the front of the original permit.

This decision is subject to the Indiana Administrative Orders and Procedures Act - IC 4-21.5-3-5. If you have any questions on this matter, please contact Madhurima Moulik, OAQ, 100 North Senate Avenue, P.O. Box 6015, Indianapolis, Indiana, 46206-6015, or call at (800) 451-6027, press 0 and ask for Madhurima Moulik or extension 3-0868, or dial (317) 233-0868.

Sincerely,

Paul Dubenetzky, Chief  
Permits Branch  
Office of Air Quality
